

Where are your students NOW?

Visitor Management System

Keep a record of visitors and contractors that enter your school by issuing a **visitor pass**. Passes show photograph, time to be spent on the campus, who they are to visit and where they are from.

Visitors leaving need only swipe the issued pass and the **IDAttend** system will enter all details.

In the case of an emergency even the visitors are included in the **evacuation report**.

Text Messaging Facility

Keep Parents informed of their child's absence or late arrival by using optional **Text Messages** through the **IDAttend** system. Text messaging can result in an improvement of attendance.

IDAttend can produce a number of reports providing detailed information. These reports include **Daily Attendance, Merit Report, Absent Report, Evacuation Report, Uniform Report, Missing Photographs Report** and many more.

The **IDAttend** team knows that each school has different requirements. **IDAttend** can capture and report on student attendance by many different methods. Our team of professionals will personalise an **Attendance System** for your environment.

Contact ID CardWorld for a Demonstration now.

Our professional and friendly staff can arrange a free demonstration at your school, providing consultation to your IT & office staff, and outline the full benefits of **IDAttend**

Reduce Administration time with your own full **ATTENDANCE SYSTEM**. **IDAttend** has been designed and developed in Australia for Australian Schools.

IDAttend will help you control your daily attendance and record entry. Electronically monitor Students, Visitors and Contractors.

- **IDAttend** shares information with your existing school administration system, Thin Client, OASIS, MAIZE, SIMS, Time Chart, Timetabler and more
- Electronic roll marking can be carried out quickly and efficiently in each class or at your morning Roll Call.
- Alternatively Teachers can use barcode sheets with or without photographs to take attendance.
- Hand held capture devices can be used with information down loaded directly into the Attendance System.
- Notify Parents by optional Text messaging (SMS) and receive replies.
- Send Emails and Letters quickly and efficiently.
- Late Passes, Uniform Passes, Leave Passes and much more can be controlled by **IDAttend**
- Full Sick Bay Control
- Manage Excursions
- Full range Reports and Trends
- Full Visitor System
- Evacuation Report
- Full installation, training and ongoing support is provided with **IDAttend**

Our team of professionals will personalise an **Attendance System** for your school environment.

IDAttend enables attendance to be accounted for in a variety of ways. If your school has a full network and computers in each classroom, it is as easy as 'clicking' on a student's photograph to mark them absent.

Data capture devices including hand held PC's, barcode readers and laptops can be used to take attendance. Information can be downloaded direct to the administration office or classroom.

The most commonly used system is the bar coded contact sheets. These can be easily printed by **IDAttend** with or without the student's photographs.

Returned roll sheets are quickly and efficiently recorded by scanning. This saves your school time and money. **Hot keys** are used throughout the IDAttend system to ensure **less work load** for your staff.

The quick entry of data helps control students attendance and truancy. Parents and Guardians can then be notified.

Live data can be viewed and staff can access reports at any time. View these reports on screen or print them out. Look for trends and monitor individual students.

A History of notes can be added to an individual student's record, including sick bay and any relevant medication needed.

Student images are placed on **all slips** for easy identification by staff, teachers and relief teachers. This also helps identify students outside the school grounds when **leave passes** are issued.

- IDAttend** issues
- Late Pass,
 - Leave Requests,
 - Leave Pass,
 - Activity Pass,
 - Uniform Pass and many more helping with your 'duty of care'.

IDAttend also assists in monitoring your sick bay allowing for up to date data across the school.

Returning with a slip is made easy; just scan it in and all the details are recorded automatically saving your staff time.

Excursions can be monitored and attendance taken quickly and easily.

Out of school activities are also handled efficiently in the **IDAttend** System.

Know when your students are out of class. **IDAttend** helps monitor students and visitors

The system also supports PVC Card Printing and encoding for your students.

PVC cards tailor made to your schools needs with relevant school data including barcode & magnetic strip.

Working with your school the IDAttend team will install, train and support you without locking you into expensive contracts.
